Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 September 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 16-26 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 16-26 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 17 September 2008 and 23 July 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.

Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).

Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).

- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Claim Objections

1. Claims 18 and 19 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. In claim 18 the ratio L/D being greater than 1, was already implied in the independent claim, claim 16, since claim states that L is greater than D. As for claim 19, the range of the ratio, which includes 1, contradicts the limitation in the independent claim of L being greater than D.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 16-26 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 16 the word "arrays" renders the claim indefinite, because it just define a series or sequence, but the object has not been identified, i.e., array of what?

In claim 16 the word "assuming" renders the claim indefinite since it does not positively recite the shape/for of the embossing zone, i.e., it is unclear if it can assume another form.

In claim 16 the definition of bridge is confusing, because it seems that there are more than one definition of it, i.e., the bridge formed by the distance between two alveoles, (first part of the last clause), and then a bridge formed by two unembossed zones or the

connection of bridges between two unembossed zones. Therefore, it is unclear how D is measured, i.e., the distance between two adjacent alveoles or the distance between two unembossed zones or the connecting bridges between two unembossed zones?

In claim 23 the phrase “linear alveoles” lacks of sufficient antecedent basis.

In claim 24, should “double-thickness sheet” be “double-ply or two ply sheet”? Since the latter is more commonly used expression.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
6. Claims 16-26 are rejected under 35 USC § 103(a) as obvious in view of Graft or Roussel. This rejection is set forth in the prior Office action mailed on August 08, 2007.

Response to Arguments

7. Applicant's arguments with respect to claims 16-26 have been considered but are moot in view of the new ground(s) of rejection.

The rejection of claims 16-26 have been maintained, for further clarification on the measurement of the bridge or bridges, see 112 rejection above. Absent such clarification, the different spacing between the cells of an embossing roll, that creates the pattern in the web, would be considered as an obvious optimization of result effective variables.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure in the art of "Tissue Papers."
